

MIT APP INVENTOR

The screenshot shows the MIT App Inventor web application running in a Google Chrome browser. The browser's address bar displays the URL `ai2.appinventor.mit.edu/#6300605900259328`. The page header includes the MIT App Inventor logo and navigation links: Projects, Connect, Build, Settings, and Help. On the right side of the header, there are links for My Projects, View Trash, Guide, Report an Issue, and a language selector set to English. The user's email address, hariharanashok19@gmail.com, is also visible.

The main workspace is divided into four panels:

- Palette:** Located on the left, it contains a search bar and a list of user interface components under the 'User Interface' category. These include Button, CheckBox, DatePicker, Image, Label, ListPicker, ListView, Notifier, PasswordTextBox, Slider, Spinner, Switch, TextBox, TimePicker, and WebViewer. A 'Layout' section is partially visible at the bottom.
- Viewer:** The central panel shows a mobile phone simulator. Above the simulator, there is a checkbox for 'Display hidden components in Viewer' (which is unchecked) and a dropdown menu for 'Phone size (505,320)'. The simulator screen displays 'Screen1' at the top.
- Components:** On the right, this panel shows a list of components currently on the screen, including 'Screen1'. Below this list are 'Rename' and 'Delete' buttons.
- Properties:** The rightmost panel displays the properties for the selected 'Screen1' component. Properties include AboutScreen (a text input), AccentColor (set to Default), AlignHorizontal (Left: 1), AlignVertical (Top: 1), AppName (screen_1), BackgroundColor (Default), BackgroundImage (None...), BigDefaultText (unchecked), BlocksToolkit (All), CloseScreenAnimation (Default), DefaultFileScope (App), and HighContrast (unchecked).

At the bottom of the interface, there is a 'Media' panel with an 'Upload File ...' button. The Windows taskbar at the very bottom shows the search bar with the text 'Type here to search', several application icons, and the system clock indicating 10:08 on 01-11-2022.
